

PRACTICALLY SOLD OUT!

Our two big announcements produced such a tremendous demand for the New

Hoosier Kitchen Cabinets

that our allotment is practically all gone.

The New HOOSIER

And the Famous Hoosier Plan
—\$1 Down—Were Compelling Factors

When the housekeepers learned they could still get the New Hoosier at the old price, and that \$1 down and \$1 a week, without interest or extra fees, would pay for it, they took practically all we had.

All we have left are a few samples, and this advertisement will probably dispose of those.

There Will be No More

Until another shipment comes from the factory, we will have no more Hoosiers. And the factory is over-sold, behind in its orders, which makes the date of our next supply uncertain. Then, too, this next shipment will finish our allotment.

After That the Prices Advance

Due to the increased cost of all raw materials used in the Hoosier, the factory has notified us that prices must be advanced when this sale ends.

Don't delay getting one of these fine Hoosiers to-day—while they last.

James K. Pirie of Graniterville and D. W. McDonald of Perry street left yesterday afternoon for Highgate Springs, where they are to spend several days in camp on Missisquoi bay. Upon their return home Mr. Pirie plans to start on an automobile trip to the maritime provinces, in the course of which he will visit some of the well known fishing grounds down east.

For the first time in six years the big police clock at police headquarters sent in its resignation yesterday. Last April marked the sixth year of a period in which the timepiece had been in operation continually. Patrolmen who are wont to mark their comings and goings by the big clock are inclined to ascribe its sudden dereliction to duty to atmospheric conditions rather than to any mechanical fault.

Bonaccord football members and the wives and other invited guests of the club members have accepted an invitation to visit Amos Hall's farm on east hill to-morrow. Mr. Hall being an honorary member and patron of the organization. Kenyon's auto bus will leave the post-office at 12:30 o'clock with those residing in the south end and Maple avenue will be the bus station at 1:30 o'clock for those who live in the north end. The club's executive committee is making the necessary arrangements and it is their one hope that good weather abides. Many of the soccer men will hike to the farm during the noon hour or soon thereafter.

TALK OF THE TOWN

On Saturday only, we will sell a \$1.25 watch for 85c. Bell & Houston.—adv. Kenyon's auto bus for picnic parties, special trips to Berlin pond, Williams-town golf and other nearby places any time; reasonable rates and careful driving will convince you. Phone 606-W for particulars.

Police headquarters got one of its periodic calls Thursday afternoon from Currier park and an officer dispatched to that cherished bit of greensward was asked to clear the grounds of youthful ball players. Concocted territory was quickly vacated by the embryo Majels and Ty Cobbs when the policeman appeared over the rise approaching Academy street. Even the vigilance of abusers has failed to keep the park entirely clear of young pastimers this summer, although the territory has not been violated as often as was the case last season.

Mr. and Mrs. John O'Leary and two children of Eastern avenue have returned to the city from an automobile trip that stretched away in the direction of the maritime provinces and elsewhere down east for an aggregate mileage of 1,000 before the familiar green hills of Vermont came in view again on their return. The trip from Boston to Eastport, Me., was made by boat with their auto aboard and when the tourists discovered that roads along the coast were not in good condition, the coastwise trip homeward was repeated. During their absence the party visited at Mr. O'Leary's former home in New Brunswick and toured extensively through Nova Scotia and on the edge of Prince Edward island. On the night the family arrived in St. George, N. B., excited fishermen reported that a big moose had paraded the wharf after breaking loose from his native forest not far from the city.
